

Valves and Filters

Valves

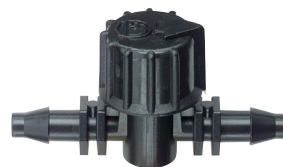

Simple two component valve for micro irrigation water control.

FEATURES

- Rapid quarter turn on-off operation.
- Straight through flow.
- Operating pressure range 0 to 70 psi at temperature to 100° F.
- Green Back® valves available with single barb.

APPLICATIONS

Used for secondary zone water diversion and flow control.

Vari-Flow™
barb x barb

Vari-Flow™
thread x thread

Filters

In-Line Filters trap particles to prevent clogging of emitters. Installed downstream from a bibcock.

FEATURES

- Single barb inlet and outlet.
- 80 mesh screen filter.
- Easily taken apart for cleaning.

APPLICATIONS

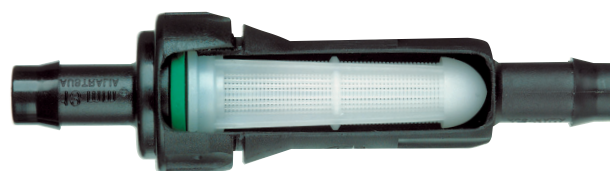

For low pressure (up to 70 psi) micro irrigation systems.
